## General Information

### Underwriters Laboratories (UL) listing

All Lacanche models described in this resource are specially made for U.S. requirements and carry a UL listing for zero-clearance installation next to cabinetry. Lacanche ranges are approved for use in a residential installation.

Please verify code compliance with local authorities before installing a custom range, as codes and permits vary among states and municipalities.

### Ordering Process

Lacanche ranges are handmade to your specifications by Burgundy artisans. This unique, old world manufacturing practice distinguishes Lacanche from other mass produced units. Because each stove is custom built, a 40% deposit is required at the time the order is placed.

*Due to the custom nature of each order, deposits are non-refundable.*

Customer may be liable for additional charges if changes are made after their order has been registered with the factory. The balance is due when the stove is released from the factory for shipment. Review sales order for exact details.

### Shipping and Installation

Lacanche ranges are shipped directly from France. Shipping charges include: air freight or sea freight, crating, insurance, customs and lift gate delivery to your driveway. Installation should be handled by a local qualified professional.
