Regulator pressure spring.
With a 16mm wrench, unscrew and flip the nut around to compress the spring in order change the regulator pressure. Make sure this reads the gas type you wish to use.

Sent to you is a set of new injectors catered to the configuration and target gas type of your range.
- 18,000 btu / 5kw
- 15,000 btu / 4kw
- 11,000 btu / 3kw
- 5,000 btu / 1.5kw
- Gas oven [13,600 btu / 3.9kw]

Range burner and top configuration shown here may not exactly resemble your range. Use this as a representation only.

There are only 4 sizes of cooktop burners and one oven burner as listed above from largest to smallest. Use the injector guide card supplied with the kit to establish the location of each new injector. Each kit and card will be designed for use at the listed elevation of your range.
