GENERAL INFORMATION

Underwriters Laboratories (UL) listing

All Lacanche models described in this resource are specially made for U.S. requirements and carry a UL listing for zero-clearance installation next to cabinetry. Lacanche ranges are approved for use in a residential installation.

Please verify code compliance with local authorities before installing a custom range, as codes and permits vary among states and municipalities.

Ordering Process

Lacanche ranges are handmade to your specifications by Burgundy artisans. This unique, old world manufacturing practice distinguishes Lacanche from other mass produced units. Because each stove is custom built, a 40% deposit is required at the time the order is placed.

Due to the custom nature of each order, deposits are non-refundable.

Customer may be liable for additional charges if changes are made after their order has been registered with the factory. The balance is due when the stove is released from the factory for shipment. Review sales order for exact details.

Shipping and Installation

Lacanche ranges are shipped directly from France. Shipping charges include: air freight or sea freight, crating, insurance, customs and lift gate delivery to your driveway. Installation should be handled by a local qualified professional.

Power and Fuel

This product will operate on 208–240 volts* (please refer to our technical pages for further information). Ranges are available in natural gas or liquid propane. High altitude installations may require special injectors. Please note high altitude requirements (5,000 feet and above) upon ordering. **For lower voltage needs, please call.*

Warranty

Art Culinaire believes in the function and performance of each Lacanche range. The service warranty supports the current product owner and guarantees that their range is free of manufacturing defects in materials and workmanship for a period of 3 years from the final product delivery. Liability shall be limited to replacement of defective parts and corresponding labor required within the warranty period.
